

Make the smart choice

Suncomfort by Glatz

From partying with friends to simply relaxing in a deck chair and letting the world go by, fans of the great outdoors know how important it is to have the right protection from the sun.

Suncomfort by Glatz parasols impress with their unbeatable value for money and iconic design. They offer flexible functions to suit customer needs, their resilience is legendary, and in the unlikely event of a defect, customers can carry out any repairs themselves.

Draw inspiration from Suncomfort by Glatz.

Put yourself in our hands

- We benefit from the expertise of leading parasol manufacturer Glatz with its 125 years of experience
- Thanks to representation, distribution and warehouses across Europe, we can ensure a steady supply of stock, even during the season
- Our parasols impress with their unrivalled value for money and iconic design
- In the unlikely event of a defect, we offer an online spare parts shop and step-by-step repair videos to enable customers to easily carry out repairs themselves

Take advantage of the benefits

- We always support you locally, even at global level
- Your surface area productivity is increased thanks to various up-selling possibilities. Seamless reordering is guaranteed – even during the season – with attractive, comprehensive offers for your customers
- We stand for flexible solutions in line with demand, because we focus on efficiency at all times during our process-oriented service delivery

Fabric collection

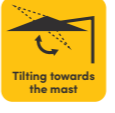

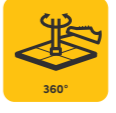

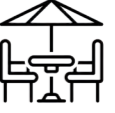

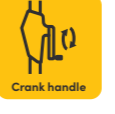

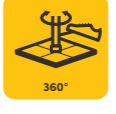

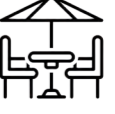

All fabrics in the Suncomfort by Glatz fabric collection offer grade 6 lightfastness (first colour changes after 160 days). Made of 100% polyester 180 g/m², they are water-repellent and provide UV protection of more than 98%.

Varioflex Solar LED

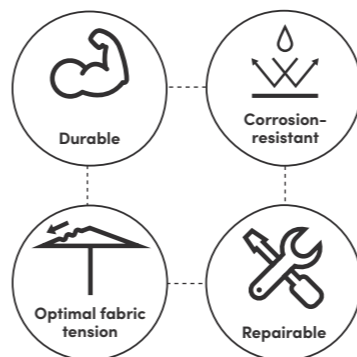

300 x 300 cm

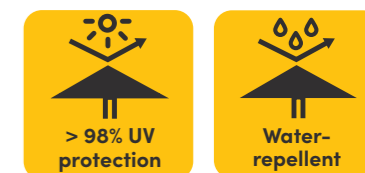

With its integrated LED lighting, the Varioflex Solar LED creates a unique, atmospheric ambience. The battery is charged conveniently by the solar panel or optional by the mains via USB, with a lighting time of around six to eight hours. Depending on the sun's position, the parasol roof can be tilted towards the mast, rotated in both directions, or the parasol can be rotated by 360° with its turning base. The crank handle enables easy opening, closing and rotation to the left and right.

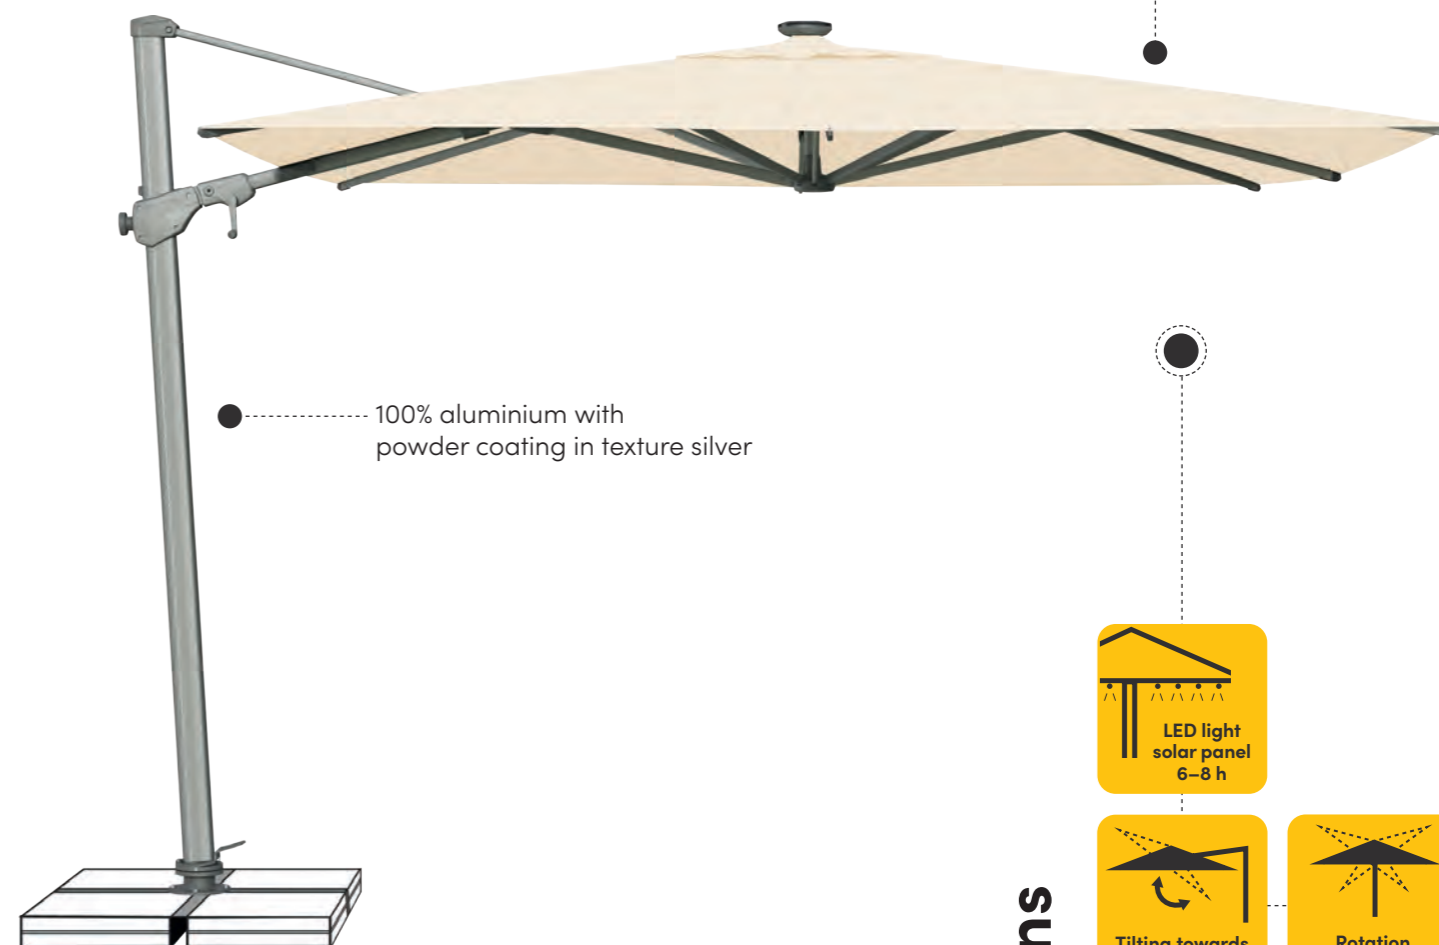

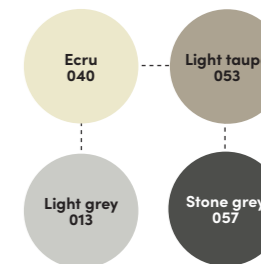

Product benefits

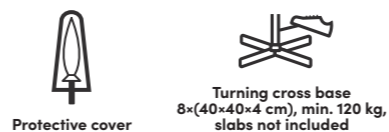

Fabrics and colours

Lightfastness: grade 6, very good (first colour changes after 160 days)
100% polyester 180 g/m²

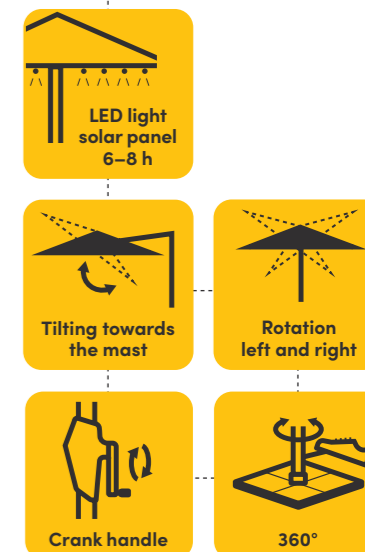

Included in the scope of delivery

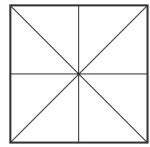

Also available

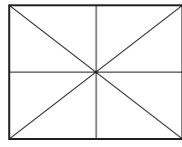

Functions

Varioflex

300 x 300 cm

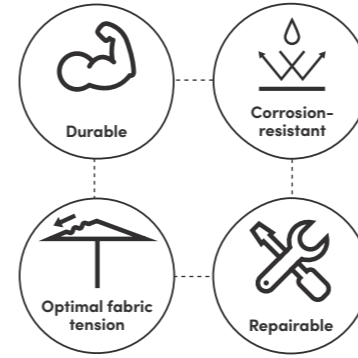

330 x 270 cm

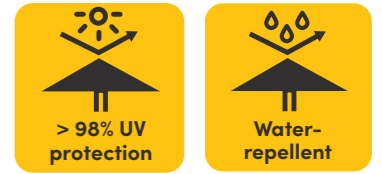

Varioflex impresses with its flexible positioning. To provide optimum shade whatever the position of the sun, the parasol roof can be tilted towards the mast, rotated in both directions, or the parasol can be rotated by 360° with its turning base. The crank handle enables easy opening, closing and rotation to the left and right.

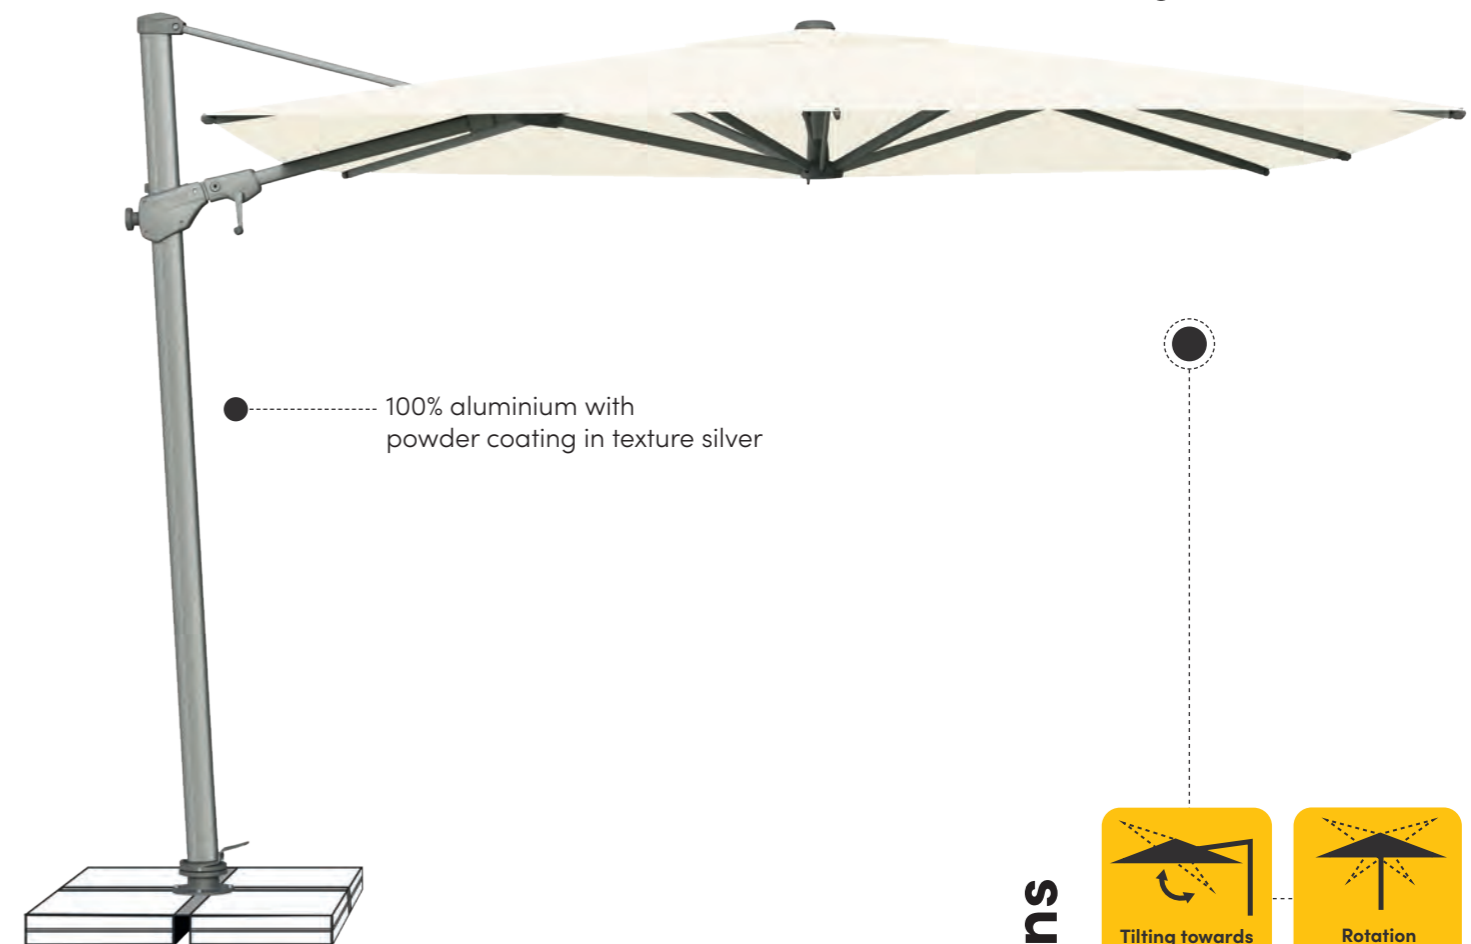

Product benefits

Functions

Sunflex

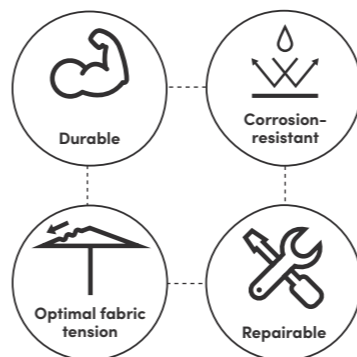

300 x 300 cm

Sunflex can be optimally adjusted to the position of the sun with effortless ease. The canopy can be tilted towards the mast via the slider, enabling Sunflex to provide shade even in the setting sun.

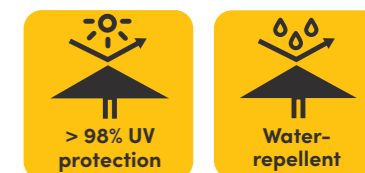

Thanks to the turning base, the parasol rotates 360° around its own axis. A crank handle is used to open and close the parasol roof.

Functions

Flex Roof

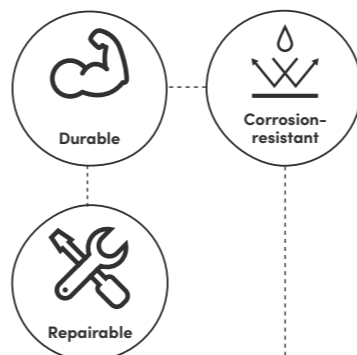

210 x 150 cm

Flex Roof is the perfect balcony parasol. It is multifunctional and with its sleek design takes up minimum space while maximising the shade it provides. The parasol roof can be tilted, rotated and slid in all directions. Steplessly adjustable in height, it not only provides perfect protection from the setting sun, but also ensures privacy at all times.

Product benefits

100% aluminium with powder coating in platinum

Pop Up

Ø 250 cm
Ø 300 cm

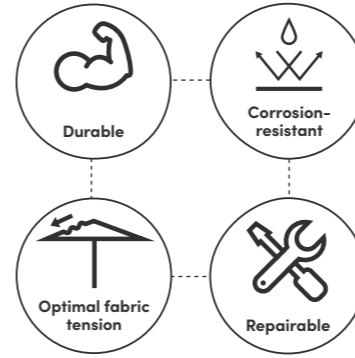

250 x 200 cm

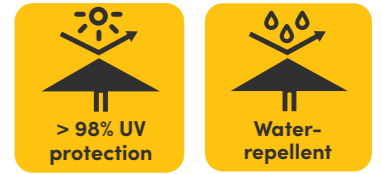

The Pop Up is perfect for anyone looking for a high-quality and modern parasol. With the pop-up system, it can be opened and closed very quickly and with little effort. The parasol also fits ideally on the balcony, due to its height adjustment of up to 47 cm. The flat parasol roof provides a modern and elegant look. The bolted rib ends ensure optimum fabric tension and a long-lasting canopy. The aluminium parasol is particularly corrosion-resistant and comes in the modern colour Texture silver.

Product benefits

Lightfastness: grade 6, very good (first colour changes after 160 days)
100% polyester 180 g/m²

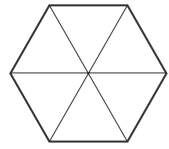

100% aluminium with powder coating in Texture silver

Functions

Slide

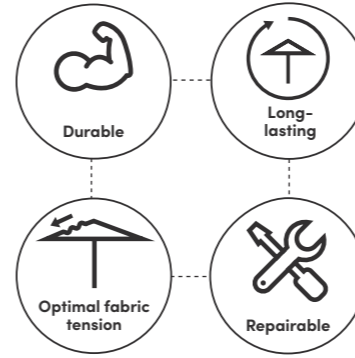

Ø 250 cm
Ø 300 cm

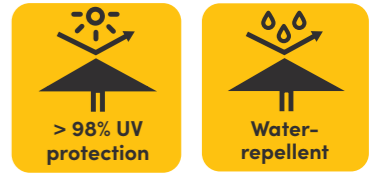

With the Slide, you can enjoy summer to the fullest. The parasol roof can be easily tilted at an ergonomic height thanks to the runner. The exclusive design with a flat parasol roof gives the parasol a modern and elegant look. The bolted rib ends ensure optimum fabric tension and thus a more long-lasting canopy. The aluminium pole and the steel frame in the modern colour Texture silver offer good corrosion resistance and robustness.

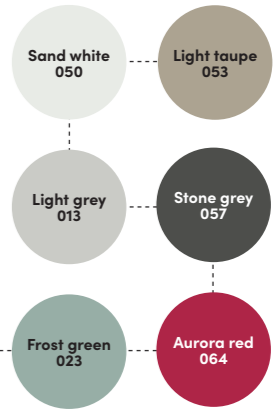

Product benefits
